III. SCHOOL HISTORY, PHILOSOPHY & OBJECTIVES

The Laurel School of Massage is a sole proprietorship, a 100% woman-owned business operated exclusively since 2012 by Caroline Fox Guerin, the School Director. The school has been approved and is regulated by the Texas Department of Licensing and Regulation to operate as a licensed massage therapy school. State of Texas approval was granted on October 11th, 2012.

The Laurel School of Massage strives to provide the public with the opportunity to learn through our education facility the art and science of massage therapy with the ultimate goal of providing the student with the skills and knowledge necessary for obtaining state licensing approval. The art of massage therapy allows the practitioner to not only experience a feeling of accomplishment but also to help their clients to better enjoy their lives. Laurel School of Massage's teachers through our programs are committed to helping their students achieve excellence in massage therapy skills and ultimately to be the absolute best that they can be.

IV. OUR PROGRAM DEFINED

The purpose of the Laurel School of Massage 500-Hour State of Texas training program is to prepare students with the knowledge and skills necessary to apply to become a licensed massage therapist in Texas. In September of 2007, the State of Texas increased the requirements from 300-Hours to 500-Hours. A graduating student must pass a national examination, the MBLEx. The Federation of State Massage Therapy Boards governs and administers the Massage & Bodywork Licensing Examination (MBLEx). It serves the massage therapy and regulatory communities as the national entry-level licensing examination. The MBLEx is currently utilized for licensure in 46 of 49 regulated jurisdictions (states). These include the District of Columbia and the territories of Puerto Rico and the U.S. Virgin Islands. Passing the MBLEx exam does NOT qualify someone to practice massage in Texas, it merely meets one of the requirements for licensure. A person who has graduated from massage therapy school and passed the MBLEx exam must apply for and be granted licensure prior to practicing massage therapy for compensation on the public. The course of study at Laurel will provide a strong background in the theory and practice of massage.

Current Programs Offered are as follows:

The 5-day per weekday program length is approximately 6 months including the internship.

The 3-day per week evening program length is approximately 11 months including the internship.

Ample time will be provided for the students to perform their internship whereby completing the entire course of study.

The maximum number of students in a classroom is 14, total of 28 in the school.

Enrollment for these courses is possible up to the time 50 hours of class have been taught. Enrollment for the 500-hour program begins approximately four months before the start of each class. The day program length is approximately 6 months including the internship. The evening program is approximately 11 months including the internship.

All other times are by appointment only. **Students will not enter the office unless the Director or an Instructor is in the office, and only after being invited into the office. All files, records, and office equipment are not for the use of students.**

SCHOOL - The school is also open during regularly scheduled class times as shown on the official published class schedules for the 500-hour program. **All other times are by appointment only.**

XI. ATTENDANCE POLICY

Attendance is critical both to the continuity of the course and for compliance with state requirements for licensure. Students are responsible for regular, punctual attendance. A master record of attendance is maintained. The instructor on a daily attendance sheet maintains the number of scheduled hours for each class session and the hours each student was present for each student enrolled in the class. The attendance sheets are turned in to the school office and the students' attendance is then recorded in the school computer, listing any missed time, makeup, tardiness or absence from class.

The school recognizes that upon occasion it may be necessary for a student to miss a class. The student will need to attend a makeup class for the day or time missed. **The first 25 hours missed**

may be made up at no additional charge to the student. All hours over the first 25 hours will need to be made up at the per hour rate of \$15.00 per hour, this fee is not included in the regular tuition charged. (The minimum fee for make up is 1 hour, or \$15.00). If a student is more than 15 minutes late for a class or misses 15 minutes of any hour s/he is counted as missing the full hour of class. A pattern of lateness short of 15 minutes will be noted and accrued. Accumulated short lateness totaling 30 minutes or more will be counted as abuse of the occasional lateness policy and will require make up of one hour.

Time missed is cumulative, meaning the time missed accumulates even if made up. By State Law the student cannot reach 15% (75 hrs.) of the total clock hours for which the student is enrolled, if it does, the student will be dropped from the school and money for the time accrued in the program is still due according to the catalogue and contract for enrollment. Time missed must be made up within 14 days of the missed time.

The State requires completion of all 500 hours of the curriculum to be eligible to apply for State licensure.

An absence shall be charged for a full day when the student attends none of the scheduled classes on that day. A partial day of absence shall be charged for any period of absence during the day. A student will be terminated from the program if the student accumulates absences of more than 10 consecutive school days or more than 15% (75 hrs.) of the total clock hours for which the student is enrolled per the enrollment agreement. Make up may be given to each student as needed, make up time must be scheduled, and no walk-ins for make up hours. Students who are terminated for excessive absences may re-enroll at the beginning of the next grading period.

Attendance is also taken during the internship portion of the program. Students are not required to staff the clinical portion of the school program but are required to keep scheduled appointments. If a student is absent or late for their client appointment the student will accumulate time-missed equal to the amount of time missed for the day. For example, if three hours of internship appointments are scheduled on a given day, and the student is absent for two hours, two hours of absences will be counted for the day. If a student needs to be absent for a scheduled day of internship, but another student can come into the school and do the appointments, then the student will not accrue any absences for the day and the fill-in student will receive the credit for those internship hours toward their internship requirement. Student may elect to wait for walk-in massage clients at their own risk. Hours spent by students in the clinic but not in actual massage activity do not count toward their internship requirement.

Make-up work shall not be authorized for the purpose of removing an absence. All absences must be made up in a timely manner. Course work should be made up in a timely manner, prior to the end date of the students' program, by scheduling make-up sessions during the school's business hours and when an instructor is available. Students who miss tests because of an absence must make them up within 4 calendar weeks or a zero (0) grade will be given. Not passing a class or completing make up, may result in an incomplete transcript and no diploma issued to the student. An instructor must be physically present during any make up work.

Each clock hour of class time is made up of 50 minutes of instruction and 10 minutes of break time. Attendance is recorded 10 minutes after the first hour of class begins and continuing in 15-minute intervals. If a student arrives more than 15 minutes late, then the student's attendance will reflect tardiness of 15 minutes and will continue to accrue in 15-minute intervals.

XII. PROGRESS POLICY

At the end of each quarter of the program (after 125 hours of either class time or internship hours combined), the student will receive a written progress evaluation of their performance to date. The written progress evaluation is handed out during class, read, and signed by the student, then collected by the teacher to be placed in the student's permanent file. There are one or more tests given in each subject at the school. Students are also graded on their hands-on performance in the Massage Therapy Technique class. The cumulative numeric test scores for each subject are averaged at the end of each quarter of the program. A student is considered to be making satisfactory progress if the cumulative numeric test score average for each subject meets the following criteria:

End of the first quarter of the program	70%
End of the second quarter of the program	70%
End of the third quarter of the program	70%
End of the fourth quarter of the program	70%

At the end of each quarter the average of the cumulative numeric test scores for each subject will be converted to letter grades as shown below. The student will receive a letter grade on the quarterly evaluation for each subject.

A = 93 – 100	W = Withdrawal
B = 85 – 92	WP = Withdrawal Passing
C = 77 - 84	WF = Withdrawal Failing
D = 70 - 76	I = Incomplete
F = 69 or below	

If a student is absent from the school and is unable to take a test, then the student will be given four weeks to makeup the test before the grade will revert to a zero.

A student who is making unsatisfactory progress at the end of a grading period shall be placed on probation for the next grading period. If the student on probation achieves satisfactory progress for the subsequent period but has not achieved the required grades for overall satisfactory progress, the student may be continued on probation for one more grading period. If the student on probation fails to achieve satisfactory progress for the first probationary grading period, the student's enrollment may be terminated. The enrollment of a student who fails to achieve overall satisfactory progress for the program at the end of two successive probationary grading periods shall be terminated. A student who is terminated from the program for unsatisfactory progress may request reinstatement but must wait out one grading period before being eligible to re-enroll.

When a student is placed on probation, the student will be counseled prior to returning to class, and the date, action taken, and terms of the probation shall be clearly indicated on the student's permanent records. Anytime a student needs to repeat a class in our Program for any reason, then the previous grades received in the subject will be erased in favor of the new grades.

If a student voluntarily withdraws from the program, then the student may come back to the school at a future date by enrolling with a new class. The student will be given full credit for all the coursework successfully completed and the student's tuition will be adjusted accordingly to reflect the partial program needed to complete the course. A re-enrolling student must, regardless of any changes in tuition or curriculum, complete a new and current enrollment agreement. Any re-enrollment, regardless of reason, requires a new enrollment agreement and the payment of a \$200 Application Fee. A student that is terminated from the program may not enroll in a future program unless approved by the School Director.

The cancellation and refund policy shall apply to a student terminated under this section. The effective date of termination for purposes of refunds will be the date of termination from the program. Should the student be terminated or dropped from the program all outstanding money due the school will need to be paid prior to receiving an official transcript.

XIII. GRIEVANCE POLICY

All grievances shall be taken seriously, and every effort shall be made to resolve the grievance. All grievances should be filed in a written statement to the School Director. All discussions shall be held in private. The School Director's decision shall be final in the resolution of a grievance or complaint. If the grievance is still not resolved to the individual's satisfaction, then any individual may contact the Texas Department of Licensing and Regulation. In addition, an individual may obtain copies of the Administrative Rules of the Texas Department of Licensing and Regulation 16 Texas Administrative Code, Chapter 117 (Effective February 1, 2020).

Any student terminated regardless of the reason shall be eligible for reinstatement at the sole discretion of the School Director. If in the opinion of the School Director, the termination was of a nature that reinstatement would not be in the best interests of the school or the student that termination would be irrevocable.

XV. STUDENT SERVICES

The school can make appropriate student records and a letter of recommendation available to any prospective employer with the student's written consent. The school's Business Practices and Professional Ethics class that is included in the 500-hour program teaches students how to set up their own business in massage therapy. The course covers many aspects of obtaining employment in massage. The school does not guarantee employment.

The Director of the school offers each student a complimentary business consultation. During the meeting the Director can focus on the student's interests and show them how to proceed in achieving their goals. A discussion of advertising materials, specific employers in the student's geographical area, and fees to charge are just a few of the topics frequently discussed during the meeting.

XVI. PREVIOUS EDUCATION AND TRAINING

A student wanting to receive credit for previous training from a college, university, or out of state massage school must submit an official transcript to the Texas Department of Licensing and Regulation for evaluation. Students who present Laurel School of Massage with an acceptable

transcript from a Department-licensed Texas massage school may be credited with the successfully completed hours that show on the transcript.
